

## RAILROAD NOTES

The annual meeting of the New York and Pennsylvania Railroad will be held at New York tomorrow.

In their plan to promote economy operation officials of the Missouri Pacific-Iron Mountain are giving particular attention to fuel bills.

A company capitalized at \$1,000,000 been organized at Arcadia, Fla., for the purpose of building electric lines in that State.

The Eastern railroads are coming to grant the wage demands of their 80,000 trainmen and conductors. Officials of said roads declare that will cost them \$18,000,000 more a year to operate.

The value of a contract between the Pullman company and the Union Pacific, relieving the railroad from all liability for accidents and injury to employees of the sleeping car company, is to be tested in a suit brought in Omaha against the railroad company by a Pullman conductor for \$30,000 damages for injuries received in accident on the road.

The Chicago and Alton has closed a ten-year contract with the Illinois Electric Light and Power company, by which the latter company will furnish all the electric current for the Bloomington shops, commencing January 1. The Alton is now engaged in enlarging the shop plant by the construction of ten buildings of large dimensions.

The Interstate Commerce Commission has issued an order extending from October 1 to November 15 the time within which the Santa Fe Railroad and connecting lines must comply with a recent order fixing specific rates from St. Louis and other Mississippi River crossings taking the same rates to Salina, Wichita, Hutchinson, Dodge City and Goodland, Kan., and directing the Santa Fe to readjust, with proper relationship thereto, the rates to other interior Kansas points and the commodity rates to all points in the State of Kansas from the same points of origin.

On the Illinois Central the total passenger earnings showed an increase of \$18,322. The total earnings of this company was held down during the last year by the shopmen's strike and the booms of last spring, temporary conditions from which the road is rapidly recovering.

The Rock Island will show an increase of \$1,200,000 in passenger earnings. The suburban traffic of this line also made material gains.

## COAL! COAL! COAL!

## RIGHT BUYING

The main point in buying Diamonds, Watches, Jewelry, Novelties, Silverware and Cut Glass is to know the people from whom you purchase. It is certainly needless, and a great mistake, to purchase from people you know little or nothing about. Our stock is extensive, and backed by the Caldwell reputation covers quality and value. The experience of a lifetime, the extent of our stock, the assistance offered in selection, add to your satisfaction, but add nothing to the price.
